

Testimonials from Participants of our NDT/Bobath Seminars

- ✚ I have been using NDT principles for many years. This course again opened my eyes to more options & ideas. Very good instructor!!
- ✚ Excellent overview of the Neuro foot and how best to step back and look at the whole picture in order to figure out the primary “system impairment” in a very functional but sequential manner.
- ✚ As an acute PT this course enhanced not only my skills but my perspective regarding the interdependent nature of the continuum of care and how I can best facilitate this process. Secondly by just as importantly, it gave me opportunity to improve my clinical skill in regards to a population of patients with very subtle needs. Thank you.
- ✚ What an amazing course. So clinically relevant! Thank you.
- ✚ This is the first NDTA course I have taken and I cannot wait until I get to take another course to continue learning – Christy Hasselbach, Denver, CO
- ✚ Great instructors – well prepared, great slide presentation – especially little videos during lecture and great demos with the babies; liked how everything was integrated – Jenny Cunningham, Ft. Worth, TX
- ✚ The instructors were very knowledgeable. They were able to find a balance between presenting pertinent research to clarify ideas and applying to clinical handling.
- ✚ This course was an eye opener and a head teaser! I have become more aware of things presented that I was not aware of.
- ✚ I have been out practicing with pediatricians for many years and courses like this still teach me so much. We should never stop learning or lose the desire to grow as professionals – Carmen Pagan, McAllen, TX
- ✚ Great course with good balance of hands on and interactive lecture – Cindy Melvin, Lufkin, TX
- ✚ Great coming to this course following my NDT Basic Course – brought so much together for me – Cindy Lewis, Austin, TX
- ✚ I enjoyed the course; a motivation for my ultimate goal of NDT trained – Daphne G. Nunez, Houston, TX
- ✚ It’s always exciting to get so much information & treatment ideas in one course that you can actually take back to the clinic & will benefit our clients. Thank you! - Deborah P.
- ✚ I highly recommend this course for PTAs working with Neuro-PT’s. - Judy G.
- ✚ This program was worth ever minute, gave me new ideas tools to address impairments of CVA patients.
- ✚ Great practical ways to incorporate the whole person in an interdisciplinary way.
- ✚ One of the best courses, great accessibility of instructors and help to practice activities
- ✚ This is an excellent course for bringing us as therapists back to the real world in the client’s perspective.
- ✚ This will help me and my home health, nursing home & OP work. Very useful in getting us to think outside the box!!
- ✚ I was excited about the course and after attending, I can’t wait to try some new things to help my patients
- ✚ An exceptional instructor! She was interested in answering all our questions.
- ✚ This was a very nice size class that made it feel easier to ask questions and pair up to work on techniques. The facility was great with all the amenities (parking, accessibility, etc.)

- ✚ The instructor did an excellent job addressing components for all therapy disciplines (PT, OT, ST)
- ✚ This was one of the best continuing education courses I have taken! Instructor was extremely knowledgeable and helpful.
- ✚ Great foundation. This has been a good experience for somebody that does not get to do hands-on therapy with children very often.
- ✚ My instructor is a very genuine person who the children responded so well to. Also her ability to include all in the course was excellent.
- ✚ Very practical. This course really helped me re-focus my problem solving skills with new treatment techniques. I look forward to using the new tools in future treatments.
- ✚ A lot of things really made sense to me for the first time, even though I could tell you the words before the class.
- ✚ It's always exciting to get so much information & treatment ideas in one course that you can actually take back to the clinic & will benefit our clients. Thank you!
I highly recommend this course for PTAs working with Neuro-PT's.
- ✚ This course was wonderful. Our instructor gave me so much information that I am excited to work into my client sessions at work. I am looking forward to many more NDT courses.
- ✚ This course in gait was very useful/techniques were expanded from another NDT intro course and the facilitation techniques will be/are beneficial. This course increased my motivation to vary my treatment strategies/techniques.
- ✚ One thing this course did was to change the mindset of therapists. We tend to focus on getting PT's functional in their homes and stop there. We tend to limit our PT's. Therapists need to go the extra mile — this was the exact attitude of the instructor and the course itself.
- ✚ Very well done! Thanks so much! We attended this conference as a team, OT, PT, SLP. Marcia's presentation manner and info was very appropriate.
- ✚ I really appreciated the information about normal movement, treatment demos by the instructor, labs and videos.
- ✚ Marcia is a very engaging and knowledgeable instructor. She has a natural way with parents and all ages of children that is admirable.
- ✚ This course was wonderful. Marie gave me so much information that I am excited to work into my client sessions at work. I am looking forward to many more NDT courses. - Tricia D.
- ✚ This course in gait was very useful/techniques were expanded from another NDT intro course and the facilitation techniques will be/are beneficial. This course increased my motivation to vary my treatment strategies/techniques. - Kerry S.
- ✚ One thing this course did was to change the mindset of therapists. We tend to focus on getting PT's functional in their homes and stop there. We tend to limit our PT's. Therapists need to go the extra mile — this was the exact attitude of the instructor and the course itself. - Jennifer S.
- ✚ Very well done! Thanks so much! - Janet L.
