About NDTA

NDTA is a not-for-profit association consisting of therapists, consumers, and other professionals dedicated to the use and advancement of Neuro Developmental Treatment (NDT) approach to multi-disciplinary treatment of neuromuscular dysfunction.

NDT is a holistic and interdisciplinary clinical practice model informed by current and evolving research that emphasizes individualized therapeutic handling based on movement analysis for habilitation and rehabilitation of individuals with neurological pathophysiology. The therapist uses the International Classification of Functioning, Disability, and Health (ICF) model in a problem solving approach to assess activity and participation, thereby to identify and prioritize relevant integrities and impairments as a basis for establishing achievable outcomes with clients and caregivers. An in-depth knowledge of the human movement system, including the understanding of typical and atypical development, and expertise in analyzing postural control, movement, activity, and participation throughout the lifespan, form the basis for examination, evaluation, and intervention. Therapeutic handling, used during evaluation and intervention, consists of a dynamic reciprocal interaction between the client and therapist for activating optimal sensorimotor processing, task performance, and skill acquisition to enable participation in meaningful activities.

NDTA Mission
The purpose of the Association is to improve treatment and outcomes for clients with neuromuscular dysfunction by providing advanced therapist education that improves skills in assessment, evaluation and salient, functional treatment.

NDTA Vision
To advance utilization of the NDT Practice Model through clinical intervention, education, and research so that clients with neuromuscular dysfunction can participate in life to their fullest potential.
WELCOME!
The NDTA Facility Partner Membership Program is designed to identify therapy centers that have existing NDT Certified therapists on staff. These centers join the NDTA as part of a group membership. As a facility partner, you will receive full membership benefits plus the added bonus of greater visibility on the NDTA website.

WHY BECOME A FACILITY PARTNER?
By offering our members and visitors an opportunity to more easily locate facilities with NDT Certified therapist services, we hope to benefit clients, therapists, caregivers, and parents as a singular NDT Community.

Please consider being an important part of that community and supporting the NDTA through your Facility Partner Membership!

QUALIFICATIONS
- Facility would provide a key contact, who would manage the membership and provide information for the additional members within the membership. ALL members added through the facility must be a therapist practitioner and/or an assistant therapist.
- Key contact is responsible for providing contact information and paying for annual membership dues for each individual.
- There must be at least one NDT Certified individual on the staff to qualify as a Facility Partner member.
- Benefits to the members are in effect only while employed at the facility, and registered through the facility.
- Membership of individuals is not transferrable to another individual in the facility and is valid for a 12-month period from date of processing.
- All policies and regulations apply to these applicants for NDTA Educational discount rates.

BENEFITS
- Four memberships for $350 annually (valued at $500).
- Unlimited additional therapists within the facility can be added to this membership for an additional $95 each (valued at $125 each).
- Listed and searchable in the online membership directory. Open to all website visitors, this search engine is used by thousands of therapists, caregivers, and parents every month!
- The individual therapists will also be listed as facility members and will each receive full membership benefits.
- An NDTA Facility Partner Membership is the first step toward identification and application for the NDTA Center of Excellence program.
